BOOST
PROPERTY MANAGEMENT SYSTEM (CLOUD)

RESERVATION & OFFLINE BOOKINGS
The online hotel management system lets you perform various operations and handle reservations received from all your sources.

EASY RATE MANAGEMENT
Set up separate room rates for different types of guests and occasions in the hotel property management software.

ORGANIZED HOTEL HOUSEKEEPING
Besides your front-office, the system organizes your hotel housekeeping. This enables you to provide a better experience.

MEAL PLANS & PACKAGES
Easily set up the offered rate and meal plans in the hotel system. Further, you will be able to sell those rate plans as packages.

SMART YIELD MANAGEMENT
Based on your set formula, this online hotel PMS system automatically changes your room rates as per your occupancy slab.
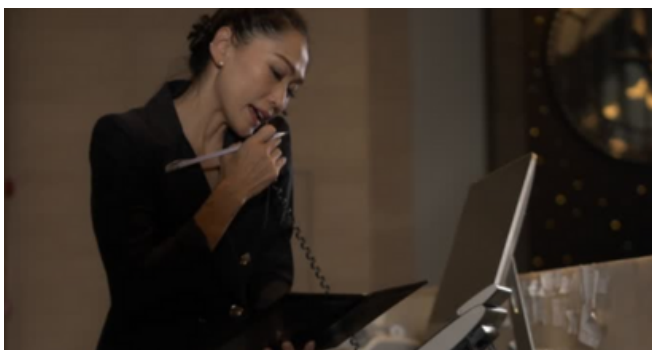

MOBILE GUEST SELF-SERVICE PORTAL
Guests can use the mobile guest self-service portal in the hotel PMS software to self check-in, request for services and much more.

FAST CHECK-IN & CHECK-OUT PROCEDUREE
Handling individual and group bookings becomes trouble free with the best hotel check-in check-out software.

USER ROLES & PRIVILEGES
The system lets you create multiple users. Grant them operation and data access based on the roles they fulfill at your property.

SIMPLIFIED FOLIO OPERATIONS
The cloud based hotel software accurately performs your several folio operations viz, split, cut, merge, transfer and more.

MULTIPLE PROFILE MANAGEMENT
Create separate profiles and save details of your travel agents as well as companies in this cloud hotel management system.

HOTEL PMS MOBILE APP
Our hotel front desk software comes with a full-fledged mobile app, allowing you to leave your front desk and run hotel on-the-go.

ALL-IN-ONE CASHIERING CENTER
The hotel back-office software lets you manage bills and payments of your company accounts as well as travel agents from one place.

BOOST CENTRIX
CHANNEL MANAGER

CONNECTED WITH 130+ CHANNELS
The online hotel channel manager maximizes your reach by connecting your property to 130+ OTAs, GDS and vacation rental portals.

100% INVENTORY UTILIZATION
Channel manager's integration with out cloud hotel software increases your occupancy and makes your inventory distribution uniform.

ONE-CLICK BULK UPDATES
The distribution wizard in our hospitality industry software performs bulk updates on channels.

TWO-WAY CONNECTIVITY WITH AIRBNB
Manage your availability, promotions and messages on Airbnb through our channel manager's full connectivity with the portal.

DETAILED PERFORMANCE REPORTS
Our software for hotels provides you in-depth performance reports of your hotel business, so that you plan your business growth wisely.

GET PAYMENTS IN MULTIPLE CURRENCIES
Regardless of your local currency, this software allows you to accept payments in different currencies from the OTAs.

INSTANT UPDATES ON CHANNELS
Our channel manager is the industry's fastest. This helps you push instant inventory and rate updates on connected channels.

COMPUTER RATE ANALYSIS
The rate shopper tool helps you monitor your competitors' rates on OTAs. This way, you can strategize for your business accordingly.

RATE THRESHOLD
Define a rate threshold in the system. Our channel manager software will stop you from accidental low or high rate updates.

OTA VOUCHERS AND COMMISSION
Besides managing OTA commission, get access to the booking vouchers sent to your guests by the OTAs right in the system.

AUTOMATIC CREDIT CARD VERIFICATION
The hotel system verifies guests credit card details, and notifies you if invalid. This reduces your no-shows and cancellations.

MANAGE PAY@HOTEL BOOKINGS
Collect booking deposit by sending online payment links to your Pay@Hotel guests directly from this hotel room software.

BOOST RESERVATIONS
INTERNET BOOKING ENGINE

DIRECT BOOKINGS AT NO COMMISSION
The cloud based hotel PMS system gets you bookings at no commission via a booking engine integrated with your hotel website.

MOBILE-FRIENDLY BOOKING ENGINE
Our online hotel booking software is responsive, which lets guests from any device visit and book with you.

EASY-TO-USE WEBSITE WIDGETS
The accommodation booking software's plug and play widgets convert more of your website visitors into bookers.

METASEARCH ENGINE CONNECTIVITY
Integrated with metasearch engines - TripAdvisor, Trivago and Google Hotel Ads, the system gains you more bookings.

SELL PACKAGES, RUN PROMOTIONS
The hotel booking software helps you configure and run as many packages, deals and promotions you want at your property.

HOTEL GROUP BOOKING SYSTEM
Your guests will be able to book for any of the locations across your hotel chain directly from our online hotel booking system.

HOTEL WEBSITE CHATBOT
The chatbot on website answers your visitors' hotel related queries 24x7x365 without your interference, thus saving your time.

MULTI-LINGUAL N' MULTI-CURRENCY
Your guests can access your booking engine in their language and pay in their preferred currency using the cloud hotel PMS software.

KNOW YOUR GUESTS CLOSELY
The hote! guest management software brings your guest's details viz. booking lead time, stayed nights, visits and more, at one place.

INTEGRATION WITH PAYMENT GATEWAYS
This hotel room booking software is integrated with 120+ leading payment gateways to let you accept payments from different modes.

BOOST
REPUTATION MANAGEMENT SYSTEM

IT BRINGS ALL YOUR ONLINE REVIEWS AT ONE PLACE

From OTAs and metasearch engines like TripAdvisor, to your hotel website and Google, this online reputation management software collects all your online reviews at one place, Thus, making your hotel review management more efficient.

YOUR REVIEW MANAGEMENT GETS ORGANIZED

Our online reputation management system bifurcates your reviews with respect to the action needed. Along with that, it also identifies the platforms that put you in the limelight. Moreover, save and surf through your older reviews effortlessly using an online review software for your hotel.
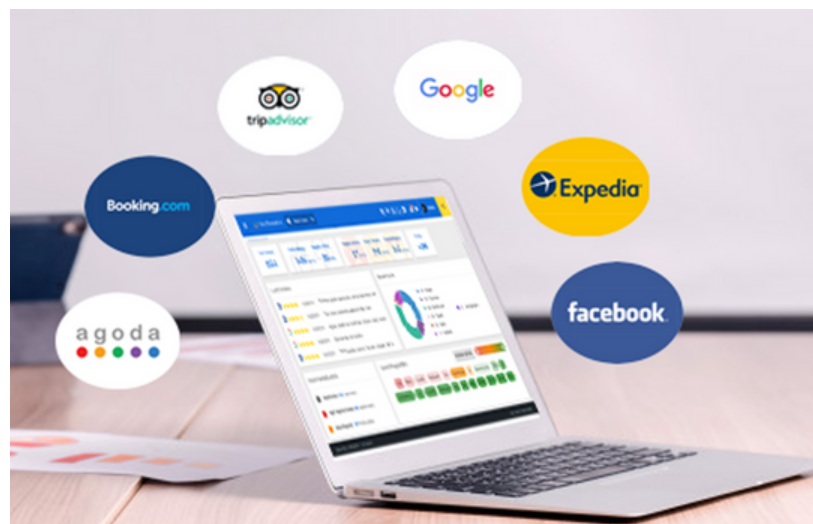

IT PERFORMS SENTIMENTAL ANALYSIS

To understand your guests' attitude while dropping the review, the online hotel reputation management software conducts sentimental analysis. So that you get their actual opinion about your services.

IT HIGHLIGHTS THE BEST OF YOUR HOTEL

This online reputation management system gives accurate evaluation of your property. So, you identify the most and least favoured services. Moreover, on receiving praise or criticism for any of your services, it also allows you to pass on the reviews to the corresponding department via email.

IT CONDUCTS PRECISE COMPETITOR ANALYSIS

This online hotel reputation management software also brings you your competitors' ratings. So you get to know the services and details that are being talked about. Moreover, you can also compare your business authority among your competitors.

IT MAKES YOUR RESPONSES FASTER

Since you get all your reviews at one place, you can respond to them faster. Besides, our reputation management software for hotels lets you save pre-drafted response templates. So you can easily edit and use them whenever required.
